Victor Grazian
Riello North America
Boiler Manager

Optimizing Your Strategy for Boiler Upgrades

Presented by: Victor Grazian

This presentation will help you develop a smart solution for upgrading your boiler.

Presentation Highlights Include:

- **Reasons to Upgrade Your Boiler: Reliability and Efficiency**
- **Finding an Upgrade Solution to Fit Your Budget: Replacing Burner vs. Boiler**
- **Types of Controls to Optimize Efficiency**
- **Selecting the Right Boiler for the Application: High Mass vs. Low Mass, Firetube vs. Watertube, and Condensing vs. Non-Condensing**
- **Concerns When Upgrading to a High-Efficiency Condensing Boiler**
- **Sizing of the Boiler: Actual Load vs. N+1 Redundancy**

Biography:

Victor Grazian has over 35 years in the combustion industry. He has expertise/experience in both the boiler industry as well as the industrial combustion industry. His professional roles involved selling, promoting and designing boilers, burners, and combustion controls. He is currently the Boiler Manager for Riello - North America. He previously worked for such companies as Siemens Building Technologies, Hauck-Kromschroder, and Eclipse Combustion. He holds several patents related to the combustion industry. He has a Bachelor of Science degree in engineering from University of Illinois in Champaign/Urbana.
