

Akron/Canton Chapter March Meeting

Friday, March 21, 2025
Time: 12:00PM-1:00PM

Location: The K Company, Training Center
Directions to Room: Enter 3rd driveway heading south.
The training room is at the end of the hallway (past the Controls Office).

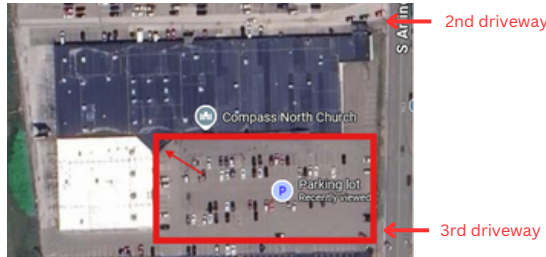

Cost:

\$15 ASHRAE
Members

\$20 Non-Members
Lunch is included!

Fill out ASHRAE
Membership Form
and attend for free!

Students attend free!

Mark Mahon
Price Industries
Business Development Manager,
Fan Coils and Terminals

New Application Considerations for Hydronic Fan Coils

Presented by: Mark Mahon

Fan coils offer versatile applications beyond simple single-zone systems, making them an ideal solution for a wide range of HVAC designs.

They can be effectively leveraged in low-lift systems to improve efficiency and system performance. By selecting fan coils optimized for heat pumps and heat recovery chillers, designers can enhance system flexibility while supporting sustainable heating and cooling strategies.

Additionally, options for elevated chilled water temperatures provide opportunities for increased energy efficiency and compatibility with modern systems. Integrating fresh air inlets directly into fan coils can deliver significant cost and design benefits by simplifying layouts and reducing equipment needs. For acoustically sensitive spaces, high-performance fan coils are essential, offering quiet operation without compromising on comfort or air distribution.

This presentation explores these innovative applications and selection strategies to maximize the potential of fan coil systems.

Biography:

Expertise: Over 8 years of experience in fan coil and terminal unit development, specializing in research, design, and application engineering.

Achievements: Held multiple leadership roles at Price Industries, including Research and Development Engineer, Design Engineer, Application Engineer, and Application Engineering Manager.

Industry Involvement: Voting member for AHRI standards 440, 410, and 880, contributing to the development and refinement of industry standards.

Leadership: Extensive experience in engineering and business development within the HVAC industry, focusing on innovation and technical excellence.

Professional Roles: Currently serves as the Business Development Manager for Fan Coils and Terminals at Price Industries.

Personal: Dedicated to advancing HVAC standards and systems through industry leadership and active committee participation.

RSVP: Sean Lacey - sean.lacey@aircontrolproducts.com
Please RSVP by 12PM Wednesday, March 19th

Pay at the meeting with Cash, Check, or Credit Card
