

# Akron/Canton Chapter November Meeting

**Cost:**

\$15 ASHRAE

Members

\$20 Non-Members

Lunch is included!

**Friday, November 14, 2025**

**Time: 12:00PM-1:00PM**

**Location:** The K Company, Training Center

**Directions to Room:** Enter 2nd driveway heading south. The training room is at the end of the building on the left hand side.

Fill out ASHRAE Membership Form and attend for free!

## Building Performance Standards (BPS) and ASHRAE Standard 100

Presented by: Scott Delo, PE, CEM, BEMP

**Scot Delo, PE, CEM, BEMP**  
Application Engineer  
Trane Technologies

As the drive towards sustainable and energy-efficient building practices intensifies, Building Performance Standards (BPS) are increasingly being adopted or considered by numerous states and jurisdictions across the United States.

This presentation aims to provide a comprehensive overview of BPS, with a particular focus on the standards established by the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE), specifically ASHRAE Standard 100. The presentation will delve into the specifics of ASHRAE's BPS, offering a detailed examination of ASHRAE Standard 100. A significant portion of the discussion will be dedicated to the compliance process associated with BPS, including the necessary documentation, performance metrics, and verification methods.

We will explore the practical implications of these standards for various stakeholders, including building designers, owners, and operators, emphasizing the operational and financial impacts. Furthermore, the presentation will provide a comparison of BPS with traditional energy efficiency standards such as ASHRAE Standard 90.1 and the International Energy Conservation Code (IECC).

### Biography:

Scott has been with Trane for over 15 years. He started working in the Customer Direct Services (C.D.S.) department in Lacrosse supporting TRACE 700 and worked on the development of TRACE 3D Plus.

In 2015 Scott moved back to his hometown of Pittsburgh and joined the Mid-Atlantic region of Trane as a Project Developer and Energy Engineer. There he developed energy turnkey and performance contracting projects for building owners.

Scott also worked as an Energy Engineer/Account Engineer on the Mid-Atlantic Digital Services Team. In that role Scott used Trane's building analytic software to identify building control issues and develop solutions for customers.

He is an Army Veteran having served as an engineering officer in the Wisconsin and Pennsylvania National Guard for a total of 8 years.
