Julia Timberman, PE
Air Control Products Sales Engineer

Building a Framework for Ethical Decision-Making with Case Studies

Presented by: Julia Timberman, PE

ASHRAE members are often confronted with ethical issues (whether they realize it or not). This session is part of a continuing program under which ASHRAE members engage in an interactive session where participants are presented with multiple ethics cases, discuss the cases in small groups, and then reveal their decisions. Test your "Ethics IQ" against real cases.

Biography:

Julia is the ASHRAE Region V Director and Regional Chair as our presenter. She works as a sales engineer for Air Control in Columbus, OH. Julia is an HVAC engineer and PE in the state of Ohio. She has a Bachelor's degree in Civil Engineering from Ohio State University. Julia has 20+ years' experience in the HVAC industry, spanning the contracting, engineering, and sales sides of our industry.

Julia became involved with ASHRAE early in her career and has been actively involved ever since. For 10+ years, she served as a chapter officer for the Columbus chapter, she has also served as the regional membership promotion chair, she now serves as the Region V Director and sits on the Board of Directors for ASHRAE.

In 2018, Julia attended the ASHRAE winter conference in Las Vegas which introduced her to TC1.7 – Business, Ethics and Legal Matters. For there she discovered her passion for presenting ethics to ASHRAE members. For the last 2 year she has chair that technical committee and has been referred to as the local "resident expert" for engineering ethics.
